motivation in the art to make that combination. Thus, applicants respectfully request favorable reconsideration of claims 1 and 67.

For the same reasons, applicants respectfully request favorable reconsideration of dependent claims 2-29, 68-77, 79, and 122-124. That is, the combinations used to reject the dependent claims have been created using the same logic. Moreover, since the dependent claims depend from either claim 1 or 67, they are patentable for the reasons stated above.

Accordingly, withdrawal of the § 103 rejection of the claims based on Shultz and Chu is in order and is respectfully requested.

IV. Conclusion

In light of the above discussion and amendment, the Applicants submit that the claims are in allowable condition. A Notice to this effect is respectfully requested.

Reconsideration of this application is respectfully requested and a favorable determination is earnestly solicited. The Examiner is invited to contact the undersigned representative if the Examiner believes this would be helpful in expediting the allowance of this application.

Respectfully submitted,

Dated: Jan. 25, 2006
